The Climate Reality Project
UI Plan

Interactive Elements

☰ Hamburger Menu

Location:	Header
User Interaction:	Mouse Click
Result:	The navigation menu opens.

＋ Accordion

Location:	Home page (Climate Change FAQ)
User Interaction:	Mouse Click
Result:	The answer to the question shown is hidden by default and revealed on mouse click.

· 'Read More' Button

Location:	Initiatives page
User Interaction:	Mouse Click
Result:	Part of the paragraph shown is hidden by default and revealed on mouse click.

▬ Tabbed Content

Location:	Home page (Annual Average Temperature)
User Interaction:	Mouse Click
Result:	The content of one tab category is shown by default. On mouse click of another tab category, the respective content of that category appears and takes the place of the original content.

API

Climate Data API

This API accesses climate change data in real time from the World Bank's Climate Change Knowledge Portal.
The API is accessed within the tabbed content on the home page.
